***Election/Restrictions***

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claim 1-4 and 15-28 drawn to a motor with a plurality of coils connected to different commutator sections, classified in class 310, subclass 233.
  - II. Claims 5-14, drawn to a motor with a specific number poles and commutator sections, classified in class 310, subclass 179.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions Group I and Group II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention of Group II has separate utility such as motor with the windings connected to the same commutator sections. Additionally the invention of Group II has separate utility as a motor with a different pole/slot/commutator ratio than set forth in Group II. See MPEP § 806.05(d).

3. Because these inventions are distinct for the reasons given above and the commutator connection search required for Group I is not required for Group II, and the pole/slot/commutator ratio search of Group II is not required for Group I; because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification; and the inventions have acquired a separate status in the art because of their recognized divergent subject matter therefore the restriction for examination purposes as indicated is proper.

Art Unit: 2834

4. A telephone call was made to Robert H. Fisher on December 18, 2001 to request an oral election to the above restriction requirement, but did not result in an election being made. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Karl I.E. Tamai at (703) 305-7066.

The examiner can be normally contacted on Monday through Friday from 8:00 am to 4:00 pm. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Mr. Nestor Ramirez, can be reached at (703)308-1371. The facsimile number for the Group is (703)305-3432.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the Group receptionist at (703) 308-0956.
